

**Exhibit Reproductions  
Acropolis Museum**

**The Acropolis Museum makes a wide selection of its masterpieces available in precise Museum reproductions in its Shops. The catalogue presents This catalogue presents this array of high quality copies to you with their dimensions, weight and pricing.**

**The production of these copies is undertaken by the Museum's own conservator workshops, by the very same people that preserve and restore the Museum's invaluable exhibits. They also produce moulds for these works, following extensive research and experimentation. The result is moulds of utmost accuracy and all the copies are hand crafted using eco friendly materials. The patinas are highly accurate, also being applied by hand, and recreating the traces of color that survive on the originals.**

**This catalogue includes representative exhibits of antiquity produced in various sizes using different techniques. The timeless aesthetic of the art represented here is a tasteful addition to any home or office as well as a great gift idea for many occasions.**

**More information on the original exhibits and their history is provides at the Museum's website [www.theacropolismuseum.gr/exereynisi-syllogon](http://www.theacropolismuseum.gr/exereynisi-syllogon).**
